

World Affairs Council of Pittsburgh

FEBRUARY 3 AND 4, 2016 **GLOBAL CHALLENGES AND U.S.** **NATIONAL SECURITY STRATEGY**

Global Issues Seminars In collaboration with the **United States Army War College**

The United States is currently navigating numerous geopolitical challenges. The terrorist group ISIS recently attacked U.S. allies. China is claiming and defending expanded territory in the South China Sea. Trends of shifting demographics and weak economies place stress on failed or failing states, contributing to additional security concerns. How is the U.S. military responding to these issues?

During these Global Issues Seminars, senior officers representing several branches of the United States military will brief students on various national security issues and discuss how the U.S. is addressing these concerns. Students will have the opportunity to engage in discussion with the officers on these issues.

Join us at these exciting events, featuring senior military officials from the U.S. Army War College who have first-hand experience with military operations and tactics at home and abroad.

Limited space is available. Register at: worldpittsburgh.org

Materials will be sent prior to the event.
